Recommendation for Mr Farhaan Beeharry Mohammad Sa'ad

To whom it may concern,

I highly recommend Farhaan Beeharry as a good candidate for employment. Farhaan has been one of my students during his second academic year at Middlesex University for the module Web Applications and Databases and I am also his supervisor for his final year dissertation. The Web module required implementing applications in HTML, CSS, JavaScript, PHP, mongoDB, Node.js and SQL among others. Farhaan has shown the ability to work independently and also as a team for multiple projects and his academic performance has been excellent. During the final year dissertation, Farhaan has developed analytical, critical, and technical skills and is also able to work well under pressure.

During his three years with us, Farhaan has participated in multiple inter-university competitions and his team has often been ranked amongst the best. He also forms part of the LaunchTech society of Middlesex University and as such, he has been able to organise many events and develop good communication skills.

Farhaan would be a tremendous asset for your company and has my highest recommendation. If you have any further queries with regard to his qualifications, please do not hesitate to contact me.

Best Regards,
